

Habitat Playgrounds

Canadian owned and operated, Habitat Systems provides a wide range of play solutions.

Our goal is to always offer our clients products which are kind to the environment, backed by solid warranties, are of high quality, and most of all... that *all* kids love to play on! A play structure is a long-term community asset, and we feel passionately that these three key areas must be met with all our product offerings. We have specifically selected manufacturers in North America that are as passionate as we are on quality, inclusivity, the environment, and how long your investment will last.

Our team has been assembled to ensure that your experience with Habitat is an enjoyable one. With in-house client services, project management, logistics, and installation services, our goal is to make purchasing your playground as fun as playing on it... well, almost. Our team of 40 is ready to help you create a new place to play!

Clients Who Have Chosen Habitat

In our 25 years in business, organizations like Canadian Tire Jumpstart, Children’s Hearing and Speech Centre, Variety Children’s Park, Starbright Children’s Centre, Kiwanis, Science World, the Vancouver Canucks and hundreds of schools and municipalities have chosen Habitat. Countless clients have offered to serve as references, so if you would like to speak with someone we have worked with in the past, just ask.

Our five offices are located in:
Burnaby, Calgary, Edmonton, Kelowna, and Victoria

 **We are proud to be a Canadian owned and operated company.**
